## Peterbilt 359 Conventional

Peterbilt gilt seit seiner Gründung im Jahre 1939 als führender Hersteller hochqualitativer Schwerlastkraftwagen in den USA. Alle Peterbilts werden innen wie außen mit demselben Anspruch auf Qualität gebaut. Der höchst anpassungsfähige 359 Conventional, der für Überlandtransporte entworfen wurde, ist in zwei verschiedenen Längen erhältlich. Der 359-13 hat eine Stoßstange und Motorhaube aus Fiberglas, die bei dem 359-19 aus Metall gearbeitet sind. Der Peterbilt 359 „Bull Nose“ ist ein typischer amerikanischer Truck mit leistungsstarkem Motor und vielen Chromteilen. Aufgrund seiner Konzentration auf Hochleistungstrucks mit geringem Wartungsbedarf und sehr hoher Langlebigkeit behauptet Peterbilt auch dank des 359 Conventional seine herausragende Position in den USA. Dies bedeutet letztendlich geringe Betriebskosten, einen effizienten Betrieb und hohe Werterhaltung.

## Peterbilt 359 Conventional

Since its establishment in 1939, Peterbilt has been one of the leading manufacturers of high quality heavy goods vehicles in the USA. All Peterbilts are built to the same standards of quality, both inside and out. The highly adaptable 359 Conventional, designed especially for long distance hauling, is available in two lengths. The bumper and bonnet on the 359-13 are manufactured from fibreglass whereas those on the 359-19 are metal. The Peterbilt 359 "Bull Nose" is a typically American truck with a powerful engine and lots of chrome. Its focus on high performance trucks with low maintenance requirements and a long service life, qualities particularly evident in the 359 Conventional, allows Peterbilt to maintain its prominent position in the U.S. truck market. This policy ultimately results in low running costs, efficient operation and a truck that holds its value well.
