ThunderJet Fighter Bombers of the Forgotten War

Note To Modelers:

Combining F84G and E A/C in one sheet presents some problems. The kit tail surfaces and wheel wells do not match!. However, the Revell F84E has a very usable set of stencils and a broken-down USAF overlapping the right lower wheel well. We urge you to use the parts from the Revell decal sheet for the F84E kit and the provided stencils, USAF and Insignia from our set for the Tamiya F84G kit.

We hope you enjoy building these beautiful and interesting A/C from the "Forgotten War".
Happy Modeling
