## FINFLASH PAINT GUIDE

### Decal Notes

Some of the decals have been printed by Archer Fine Transfers. The decals are printed on one continuous piece of clear decal film, and you will need to cut out each marking. All of the Archer printed decals have a silk screen printed white background decal. Place this white decal on the model first and allow to dry before applying the Archer printed decal. For more information visit their website at: <http://www.archertransfers.com/instruct.html>

-  FS 33538 Insignia Yellow TESTORS MM 1708
-  FS 35183 Bright Blue TESTORS MM 2032
-  FS 31136 Insignia Red TESTORS MM 1705

The unit colors will need to be painted on the tail fin.  
Note the position of the Iceman 1 decal, the text does not go onto the yellow portion of the fin flash.
