VFA-14 90th Anniversary

The Strike Fighter Squadron 14 (VFA-14) "Tophatters" are a United States Navy fighter attack squadron based at Naval Air Station Lemoore. They fly the F/A-18E Super Hornet, and are the Navy's oldest active squadron, having formed in 1919. Their callsign is Camelot, and their tail code is NH.

Since its inception the squadron has flown 23 different type aircraft, had its designation changed fourteen times, operated from 20 different aircraft carriers (and several battleships) and had 79 commanding officers (the 80th is now in command).

Over the years the squadron has been assigned many different missions, including patrol and observation in its early years, and scouting, attack, fighter, bombing and forward air control missions when it became associated with carrier-based operations. The squadron adopted the classic Top Hat as its squadron patch and called themselves the "High Hats".

Twobobs' goal is to provide you with the most thoroughly researched decals that money can buy. We go beyond using traditional reference resources and many times speak with the actual aircrews and maintainers of our subject matter.

Being modelers ourselves, we understand that there is no substitute for this painstaking research and we are proud to offer, what we feel, are the best decals on the market. If you have any subject matter that you feel should be the next Twobobs creation, let us know. We'll be happy to listen to any and all customer input.
