Koninklijke Luchtmacht
3/3 Sqn

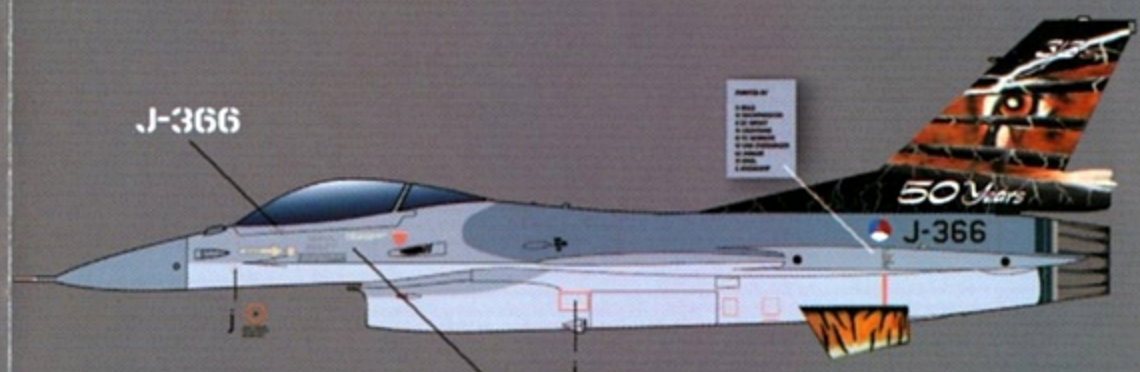

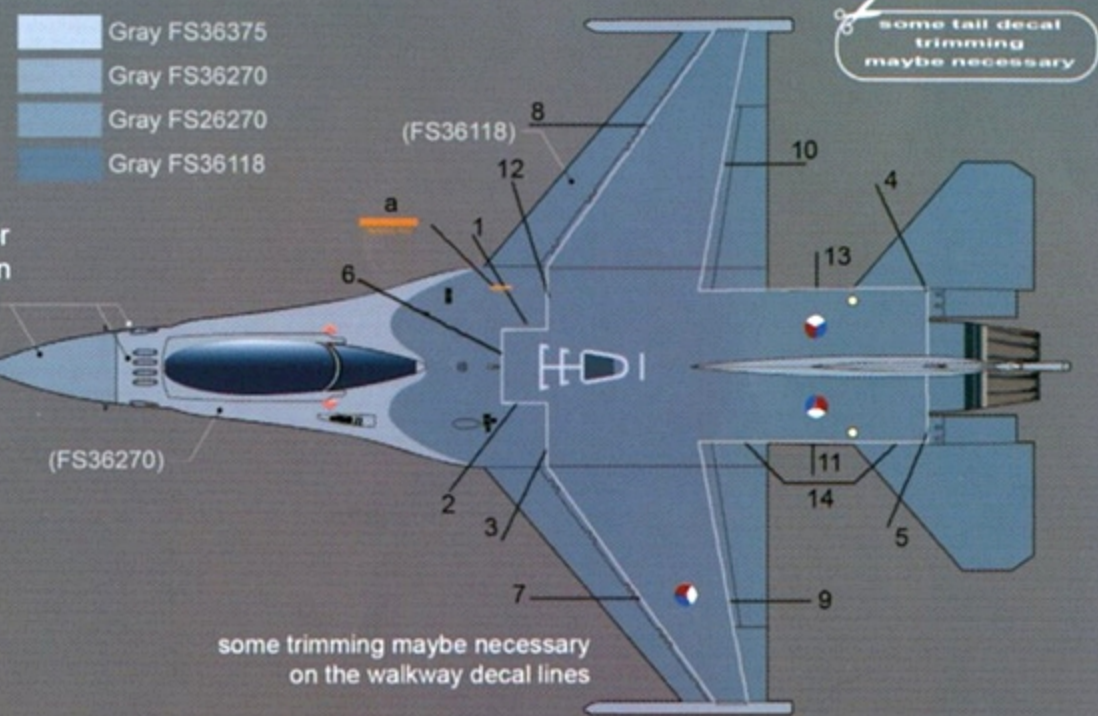

50 Years
Anniversary

On December 1st 1953 313rd Squadron was activated at Volkel AB. However, as this Dutch squadron was flying missions over Afghanistan in support of Operation Enduring Freedom, the celebration of 50th anniversary was held on April 1st and 2nd 2004 instead of in December 2003. On Thursday April 1st about 200 spotters were invited at Twenthe AB and saw the appearance of F-16AM J-366, with a new stunning tiger scheme for the celebration. Only a few days after the ceremony the aircraft disappeared and went to the maintenance hanger for its 300hrs. phase inspection. It was not to be seen again until it made its appearance at Schleswig, Jagel AB where the annual NATO Tiger Meet was being held. J-366 still flies with this tiger scheme today.

J-366 specifics
