MARKING AND PAINTING

Correct Method for Applying Decals

- ① Clean model surface with wet cloth.
- ② Cut each design out of decal sheet and dip them in warm water for 20 seconds.
- ③ Check with finger tip if design is loose on base paper. If so, place it on proper position on model and slide off base paper leaving design on model.
- ④ Move design to exact position with wet finger tip, and push out excess water and air bubbles under decal with soft cotton cloth.
- ⑤ When decals get dry, wipe off with wet cloth excess glue left around decals.

■ 貼上水標印の正確な方法：

- ① 將各標印從紙上切出，浸入溫水(40°C)中，再放到模型表面正確位置上，將底紙移去，用柔軟的布輕壓，確保效果完美。
